An Annual Newsletter of  
Narasinha Dutt College

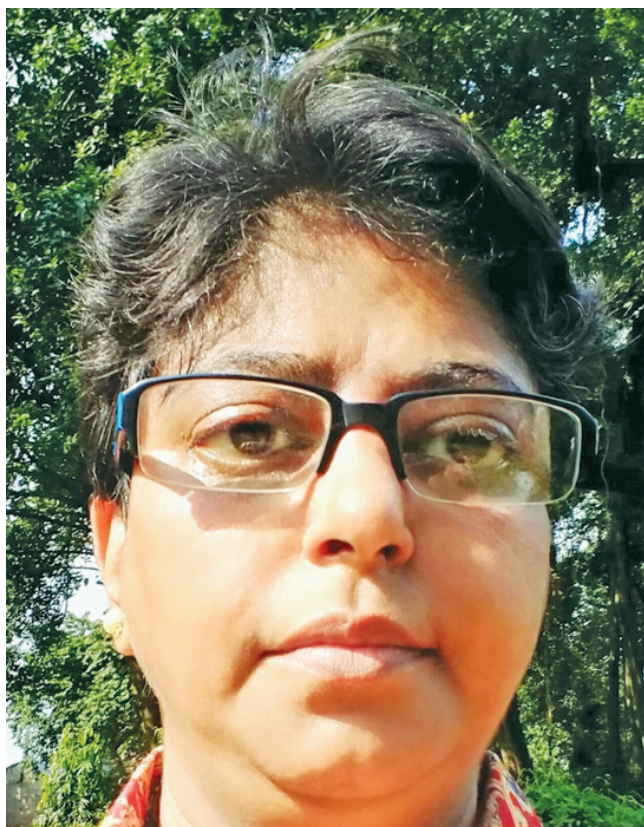

## NDC

Volume 1, Issue 1, December 2020

## A glimpse of the year 2020

(January to December)

All educational institutions around us are going through a totally new situation for the first time under the impact of Covid 19. Never has there been such a spurt of online activity, be it in teaching, in organizing workshops, courses or seminars. The college, too, has continued its academic and official activities through online platforms.

## Principal's Message

Narasinha Dutt College opened the window of knowledge in 1924 and produced millions of souls who have reached the summit of success. Countless events of glory have enriched the institution year after year. Multiple windows were opened to see beyond imagination. WindowsNDC is a new one which is being introduced to highlight the rising steps of Narasinha Dutt College at the end of a year.

The year 2020 was started with sporadic existence of an invisible tiny life which has turned into a monster creating pandemic within the first quarter. Human existence was questioned and the total globe was locked. Narasinha Dutt College had to shut the door but has opened this window. This newsletter is an archive of immense potential of all the stakeholders who were never locked and cannot be locked by any force. It is my pleasure to publish this inaugural volume of WindowsNDC which is a self explanatory asset of an institution approaching centenary.

# Webinars & Seminars

## Webinars

The term 'webinar' has gained mileage and our college has successfully arranged and conducted several national and international webinars with national and international speakers and participants. During this ongoing pandemic period, the IQAC and many Departments and Sub – Committees, Alumni Association of this college are still organizing webinars. The topics are various ranging from the purely academic to popular themes like dance, mountaineering, students' scholarships, vocational course, film, value education and so on. Some webinars were received with great enthusiasm by teachers and students alike, like the talk by famous mountaineer Sri Basanta Singha Roy on 26th July 2020; the webinar titled 'Bhalo achi Bhalo theko' in which our ex student and Covid survivor Amrita Panda related her experiences on 15th July 2020; the webinar on 'Gender and dance' featuring Dr. Urmimala Sarkar Munshi on 24th July 2020 and the webinar titled 'Shatobarshe Satyajit: Shishu Kishorer Simana Periyel Feluda' by Dr. Shaoli Mukhopadhyay on 26th August, 2020. Keeping the 3rd cycle NAAC Accreditation of our college in view, a National webinar was organized by the IQAC on December 9, 2020. Dr. N.S. Dharmadhikari, an eminent educationist from Pune and a member of NAAC & UGC delivered his talk on the "Strategies of Optimizing Institutional Performance in Accreditation". In addition, a one-day international webinar on "Pedagogy through the Looking Glass: Challenges and Opportunities" was organized by Narasinha Dutt College and Naba Ballygunge Mahavidyalaya on 5th July, 2020.

## Pedagogy through the Looking Glass: Challenges and Opportunities

A PANEL DISCUSSION

The COVID-19 has affected educational activities across the world. As almost all educational institutions remain closed, most of the students/learners are suffering because of this pandemic situation. All the academic activities are at stake. Countries are compelled either to defer the sessions or close the ensuing sessions. All the stake holders are experiencing tremendous psychological traumas. The present crisis has precipitated many challenges for educational institutions to provide secure, uninterrupted and high quality online education. This pandemic gradually encroaches the space for formal 'chalk and talk' methods of educational institutions, instead inviting use of technological tools to impart training and teaching. Online non-contact mode of teaching holds much safer place rather than offline contact mode, academics resilient to force not by choice. Persistent 'digital divide' across nation magnifying the divide in academic sector also, is limiting the scope of education for the fortunate only, hampering the very spirit 'education for all'. At this juncture the webinars will address the problems relating to academics and find out underlying potentials embedded within digital teaching-learning options.
